BARTER EXPO 2008 WHY SHOULD I ATTEND?

FOR SELLING

Simply stated, if your company is looking to reach new customers and make solid contacts for future business, December could be your MOST PROFITABLE MONTH EVER. Nowhere will you find a more highly motivated or enthusiastic batch of prospects. The hundreds of customers gathered at the Barter Expo make up a group of influential decision makers and entrepreneurs; and with each prospect you have an unbeatable edge over your competition; your willingness to trade. Once they meet you, learn more about your product or service and understand how your company can meet their needs the sale is in the bag! Bring plenty of literature, pictures, samples, and a couple of energetic spokespeople.

FOR BUYING

For learning about ways to profitably spend trade dollars, this is The Event! Be there! By lining up suppliers for your company you could find ways to save thousands of dollars over the next few months. Without a doubt, Trade American Card has hundreds of clients you know almost nothing about! Want to save hours of your precious time? Come meet them, shake their hands, look over their products and agree to do business on trade in the future. Imagine the time (and money) saved when you'll know next time you need a forklift, a lawyer, some shipping labels, recruitment advertising, office machines, a good caterer or some power tools. You meet them at the Barter Expo.

FOR FUN...AND PROFITS

We're pulling out all the stops on this one. It's our most prestigious location ever. Caterers and restaurants will offer "A Taste of Barter" Gift Certificates. We'll award the "Best of the Show" prize for the best exhibit, and many displayers will offer free samples, give-aways or prize drawings. A blitz of local radio and newspaper advertising will, for the first time, promote the Barter Expo to the general business public. Business owners who haven't yet heard about the benefits of barter will be there in force to check us out. Each of them, as a cash paying customer, is also your prospect. The Barter Expo is a one-a-year opportunity. To miss it is to lose out on thousands of dollars of buying and selling opportunities. Can you afford to pass up this chance?
